

Board Best Practices Checklist

- Clearly define the organization's goals and mission and make them known to board members, employees, customers and the surrounding community.
- Ask board members what the entire organization is doing about large social issues like poverty, racial injustice and inequality.
- Reassess how much power your organization's board has and identify exactly what the board has control over.
- Refer to the Michigan Nonprofit Corporation Act (see Appendix) to review how board members can meet remotely.
